

Chemistry Department Seminar Schedule Fall 2017

Aug. 21	Mon	Introduction to seminar
23	Weds	Seminar prep talk
28	Mon	
30	Weds	
Sept. 4	Mon	Labor day
6	Weds	
11	Mon	
13	Weds	
18	Mon	
20	Weds	
25	Mon	Arene-Arene Interactions: Theory and Applications in DNA-Intercalator Binding. Dr. Michael Lewis, St. Louis University
27	Weds	
Oct. 2	Mon	Next Step – Should I Consider Graduate School? Why, When, and How? Dr. Rebecca Peebles
4	Weds	A Novel Method for Reducing Tumor Development Through Targeting microRNA. Seth Stutzman
9	Mon	
11	Weds	DNA Charge Transport Influences Redox State of the [4Fe 4S] Cluster in DNA Primase. Emma Scaro
16	Mon	
18	Weds	Mechanistic Study of Pd(OAc) ₂ /bbeda-catalyzed Cycloisomerization. Komadie Dissanayake
23	Mon	
25	Weds	Rotaxane-based Stimuli Responsive Nanopistons as Carriers for Small Molecule Delivery. Hansani Liyanage
30	Mon	Finding a Better Way to Make Diazepam Using Mass Spectrometry as a Faster Optimization Technique. Samira Issaka
Nov. 1	Weds	Adsorptive Denitrogenation of Fuel by Metal-Organic Frameworks. Syed Rahmath Ullah Joy
6	Mon	
8	Weds	
13	Mon	
15	Weds	Nontargeted Metabolite Profiles and Sensory Properties of Strawberry Cultivars Grown both Organically and Conventionally. Allison Ridey
Thanksgiving break		
27	Mon	
29	Weds	
Dec. 4	Mon	
6	Weds	

Key: Yellow = external speaker
 Rose = graduate student seminar
 Green = senior student seminar
 Purple = junior seminar
