6. 2003 Budget Report

Vice President Cooley presented a summarization of the revenues and expenditures in major areas in FY 2003. He identified expenditures, referred to by the BHE as "unavoidable cost increases" that contribute to the deficit. He advised the Council that the numbers presented reflect the budget at a point in time, and the budget is not a static document. He explained how the budget recall worked last year. He noted that there may be a midyear rescission again this year and the University may not know the amount until March.

7. Administrative Costs Report

Bill Weber discussed administrative and faculty cost trends. He explained the different types of definitions used in different reports. He noted that one of the reasons that administrative costs went up one year was mostly because several civil service positions were reclassified to become academic support professionals. He added that the percentage of appropriated staff funding spent on faculty salaries was highest in the state and that the percentage of appropriated staff funding spent on administrative and other professional salaries was below the average for all Illinois public universities.

8. Development of a CUPB Legislative Action Team

This item was postponed until the next CUPB meeting due to lack of time.
