

FACULTY DEVELOPMENT PARTNERSHIP GRANTS

The Faculty Development and Innovation Center invites applications for Faculty Partnership Grants. Partnership Grants are designed to help EIU faculty develop interdisciplinary projects within the university, partnerships with the community, or with faculty beyond the campus. Successful grants (up to \$800) will address goals of fostering collegiality between departments, forming partnerships beyond the university, and/or reaching a broad audience. Full [Grant Guidelines and Application](#), and examples of previously successful proposals are available at <http://www.eiu.edu/facdev/facpartnership.php>. Applications are due noon, Friday, November 16, 2018. We will contact successful applicants before the beginning of Spring semester, and grants must be spent by the end of this fiscal year (end of June 2019). For more information, please contact the Faculty Development and Innovation Center at 581-7051 or fdic@eiu.edu
