

How to Communicate Synchronously with your Students using Collaborate

FDIC Webinar: Flexible Teaching Series

By Julie Lockett, Director of Learning Innovation

Faculty Development and Innovation Center, EIU

August 11, 2020

Agenda

Best Practices for Synchronous Meetings with Students.

How to use the tools in Collaborate Ultra for online synchronous meetings in a course in D2L.

How to record online meetings for use asynchronously.

Synchronous vs. Asynchronous

- Synchronous - Communication and activities take place in real time.
- Asynchronous - Communication and activities take place outside of real time.

Synchrony may depend on . . .

- Learner characteristics and what best meets their needs.
 - Some learners often require more flexibility, so asynchronous is usually best, perhaps with optional synchronous sessions.
 - Some learners often benefit from the structure of required synchronous sessions.
- Demands on the student's time and students in different time zones.
 - Due to work, responsibilities, or varying time zones, students might expect to complete their work during the day, during the evenings, or on weekends. Synchronous sessions may not be feasible.

Synchrony
may also
depend on
the nature
of your
course or
course
activities.

Communication
is Key

It is not recommended to have required synchronous meetings (for an online course) unless students have been notified of the requirement before the course begins (preferably at registration).

A clear statement of the instructor's expectations for learner participation in required course interactions including frequency, length, timeliness, etc. should be prominently placed in the course.

Tips for Engaging Students in Synchronous Sessions

Collect

Collect information before class.

- Send a quick email or a 1-3 question survey a day or two before the session.

Tell

Tell students what to expect.

- Email students or post an announcement before the synchronous session and tell them what topics the session will cover and how they should prepare.

Ask

Ask participants to come with one burning question about the topic.

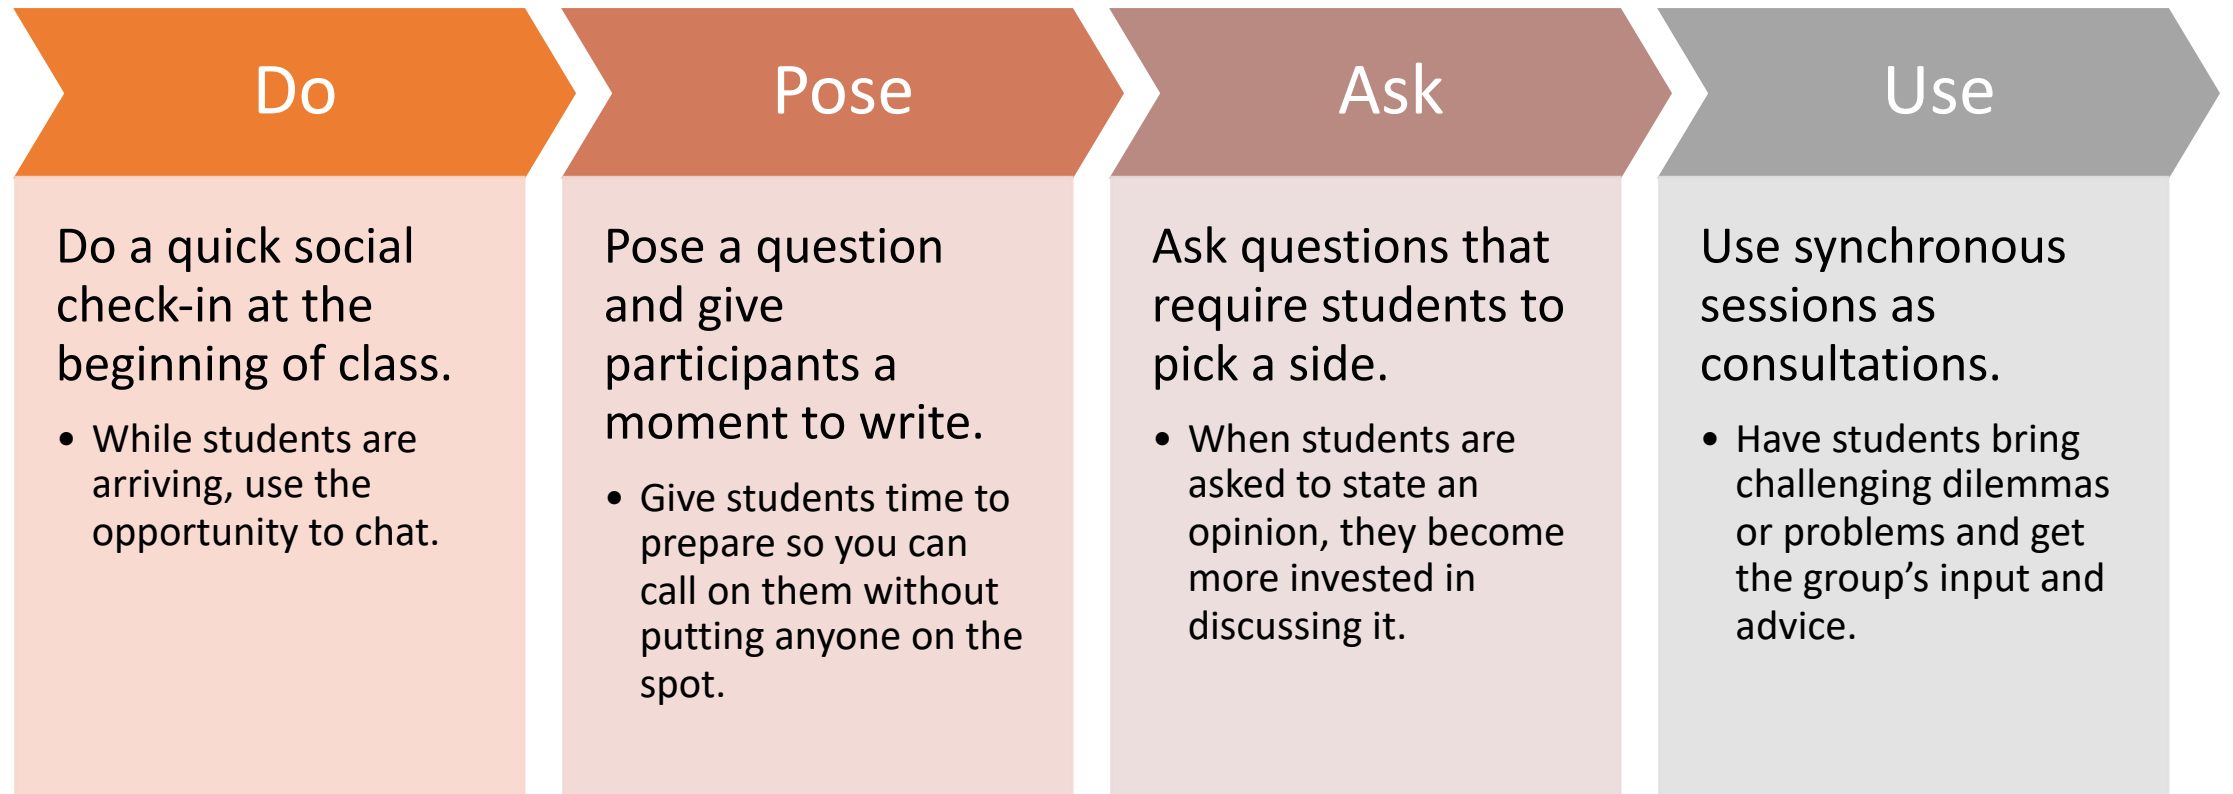

- Start the session off by giving some of your students the opportunity to ask their questions.

Make

Make sure your synchronous session offers novel content, insights, or activities.

- Avoid duplicating what is covered elsewhere in the course.

Tips for Engaging Students in Synchronous Sessions

ULTRA

MEDIA SPACE TOOLS

Located on the Media Space (main) screen.

Each top image shows the inactive tool. The bottom image indicates the tool is active.

Audio

Select to turn microphone on. Lines through the microphone icon indicate the microphone is off.

Video

Select to turn your video on. Lines through the camera icon indicate the webcam is off.

Hand raise

Select to raise your hand to answer a question or get the moderator's attention.

Session menu

Located in upper left corner of Media Space.

Opens the Session Menu. Session Menu tools are listed on page 5.

Status

Select to show your status as away. Select again when you return to show you are back.

Collaborate

panel

Located in lower right corner of Media Space. Opens the Collaborate Menu. Collaborate Menu tools are listed on page 5.

Follow the speaker view

Switch to follow-the-speaker view from grid view. Default view for more than five attendees.

Grid view

Switch to the grid view for more than one video stream.

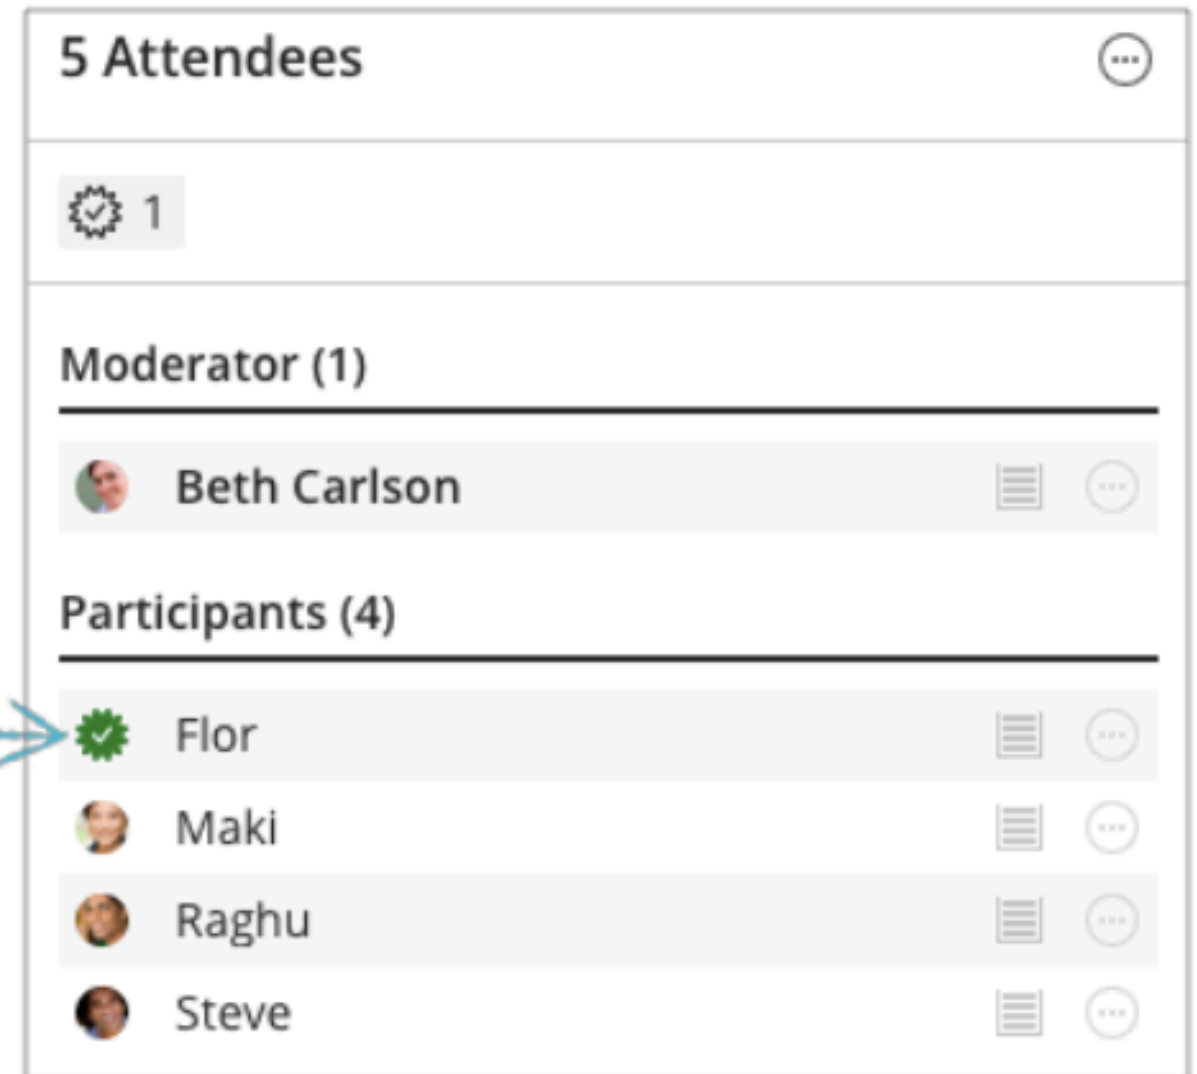

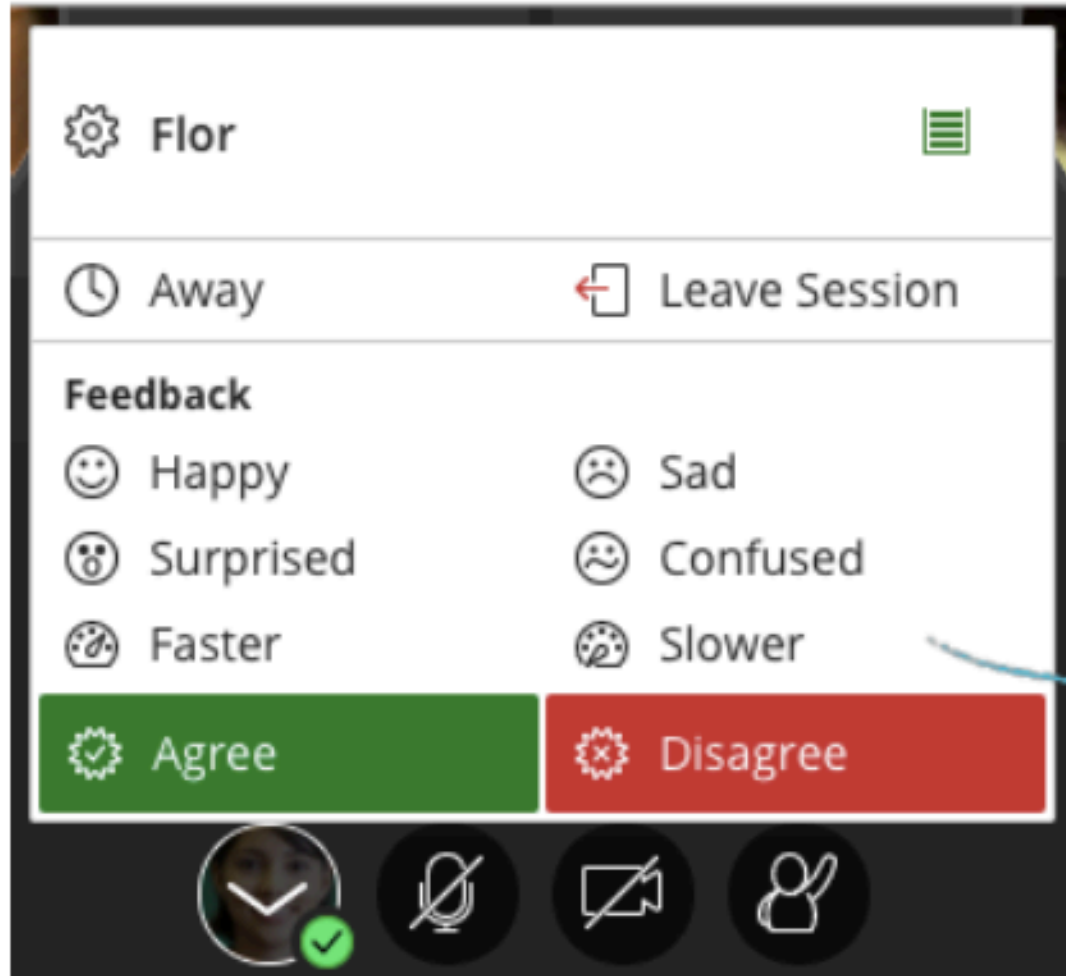

Picture-in-picture

Select to switch from shared content to the speaker and vice versa.

Feedback

- Select your profile  from the bottom center of Media Space.

Chat

Room Empty

You are the only one in the room.

Moderators

Sharing Content in Collaborate

COLLABORATOR PANEL TOOLS FOR MODERATORS & PRESENTERS

Share Content

Moderators and presenters can share a blank whiteboard, an application, PDFs, PowerPoint® presentations, and images in GIF, JPEG, and PNG formats. Select Share Content to access the moderator tools listed below.

Share Whiteboard

Moderators and presenters can share a blank whiteboard.

Share application

Moderators and presenters can share their entire desktop or a single open application.

Share files

Moderators and presenters can share PDFs, PowerPoint® presentations, and images in GIF, JPEG and PNG formats.

WHITE BOARD TOOLS

Located in the upper left corner of Media Space when the White Board or files are shared.

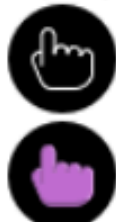

Each top image shows the inactive tool. The bottom image indicates the tool is active.

Select

Use the arrow to select an object on the whiteboard. After you select it you can resize, move, and delete it.

Pointer

Use the hand to point to different areas of the visible slide. Attendees see wherever you are pointing on the slide.

Pencil

Use the pencil to draw free hand on the slide.

Shapes

Use the Shapes icon to draw a rectangle, ellipse, or a straight line. Your choice.

Text

Type text on the slide with the "T".

Clear

Use the eraser to undo everything.

View controls

Show or hide your zoom, fit, and size controls.

View controls opened

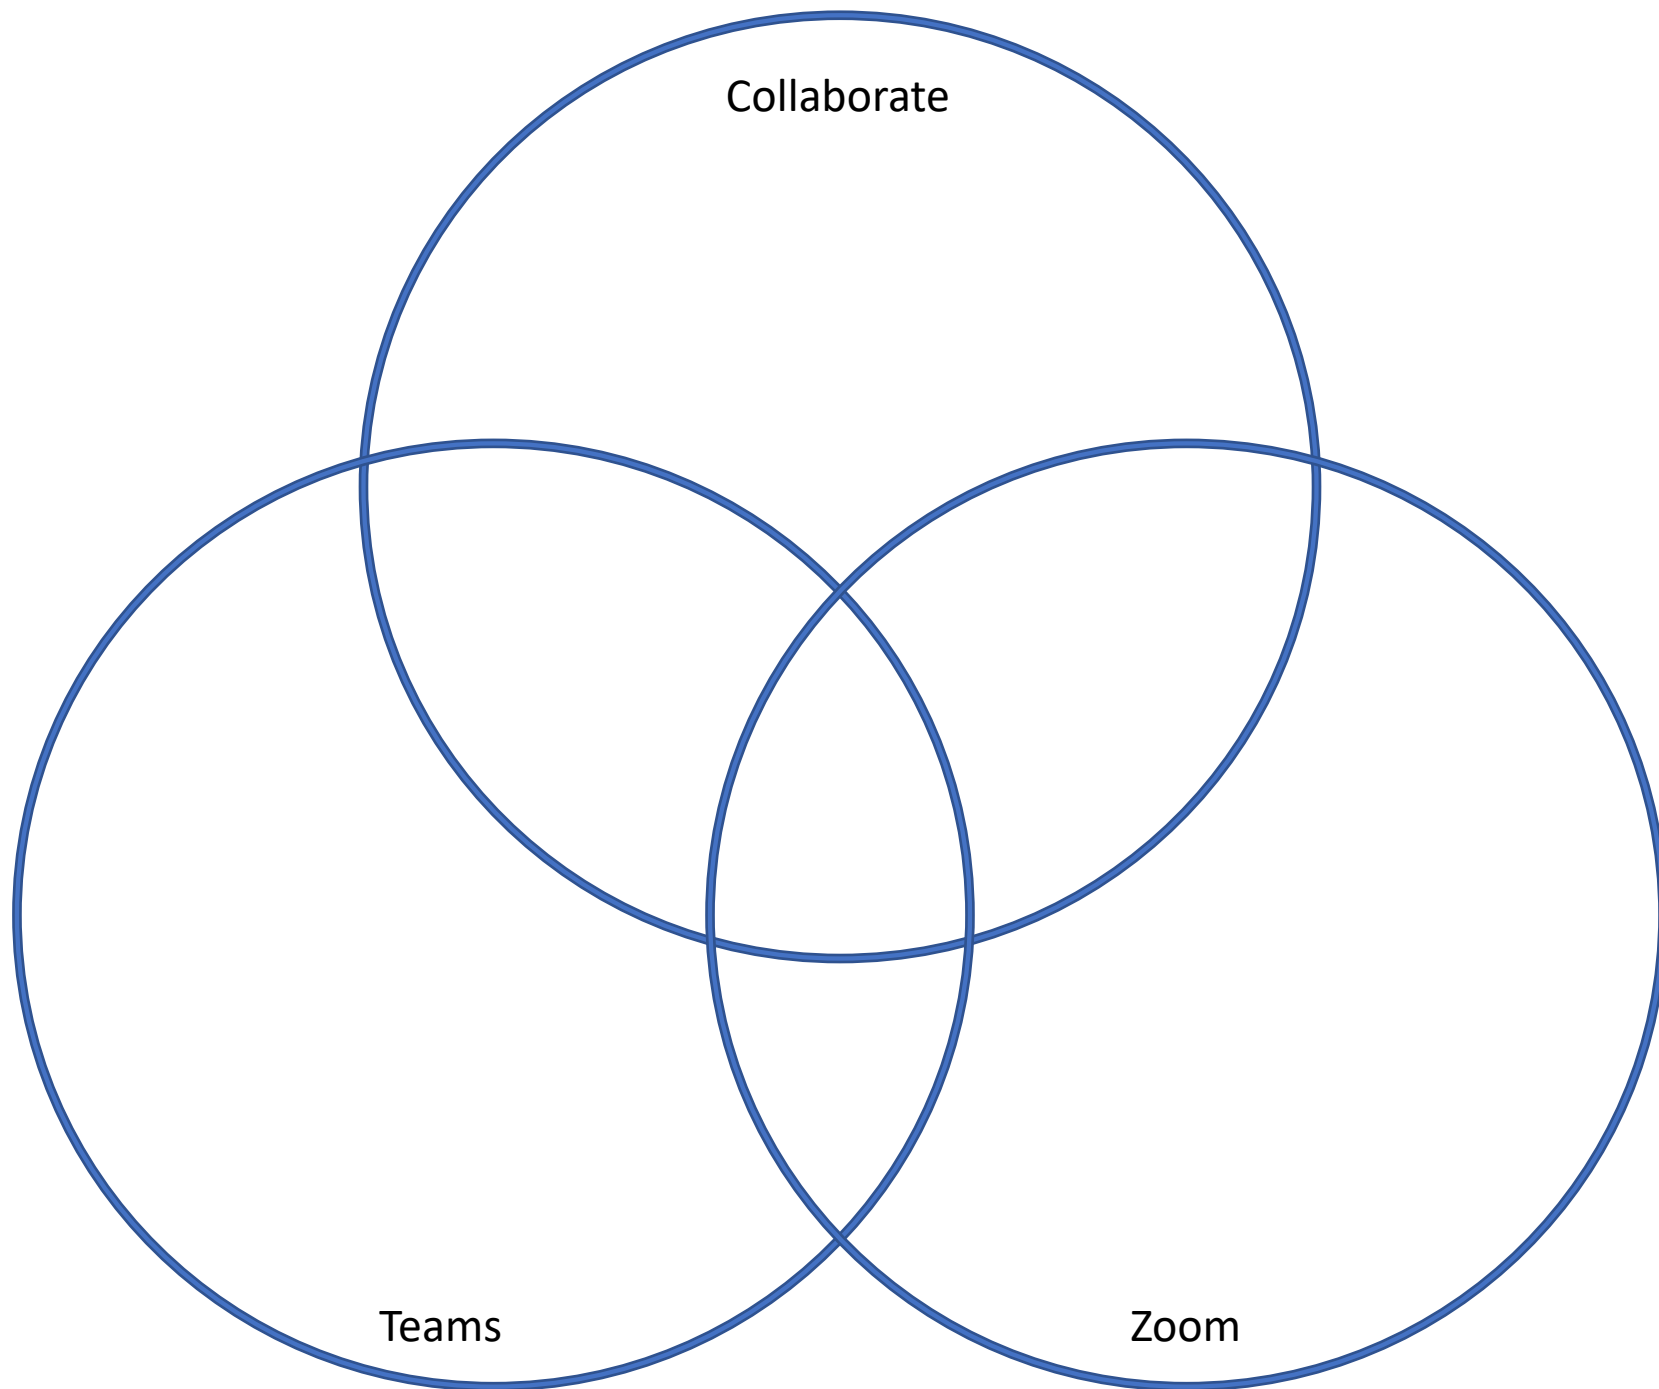

Zoom in, Zoom out, Best Fit, Actual size

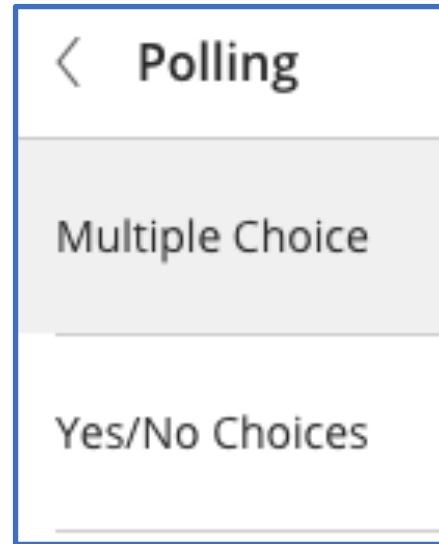

Slide navigation controls

Move to the previous or next slide.

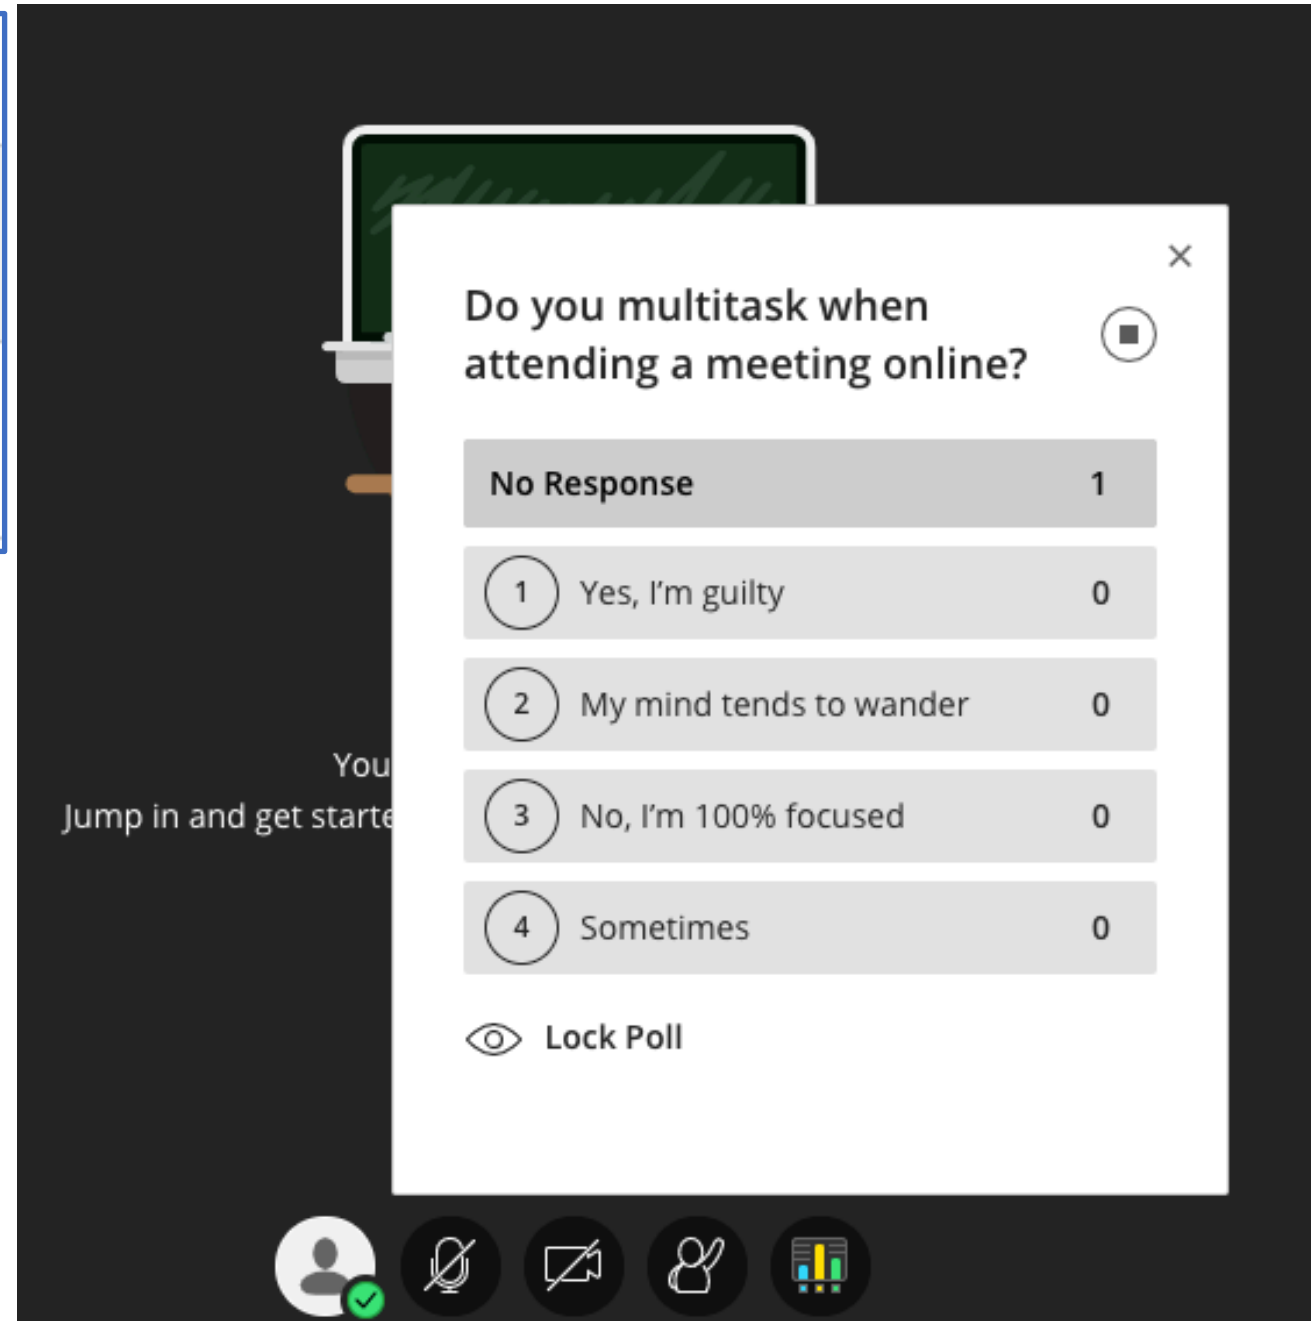

Polling

Polls have many uses in a live session.

- Polls can engage attendees and gives them an opportunity to participate.
- Attendees respond to a poll by selecting one of up to five responses.
- You decide how many choices attendees see.

Session Recordings

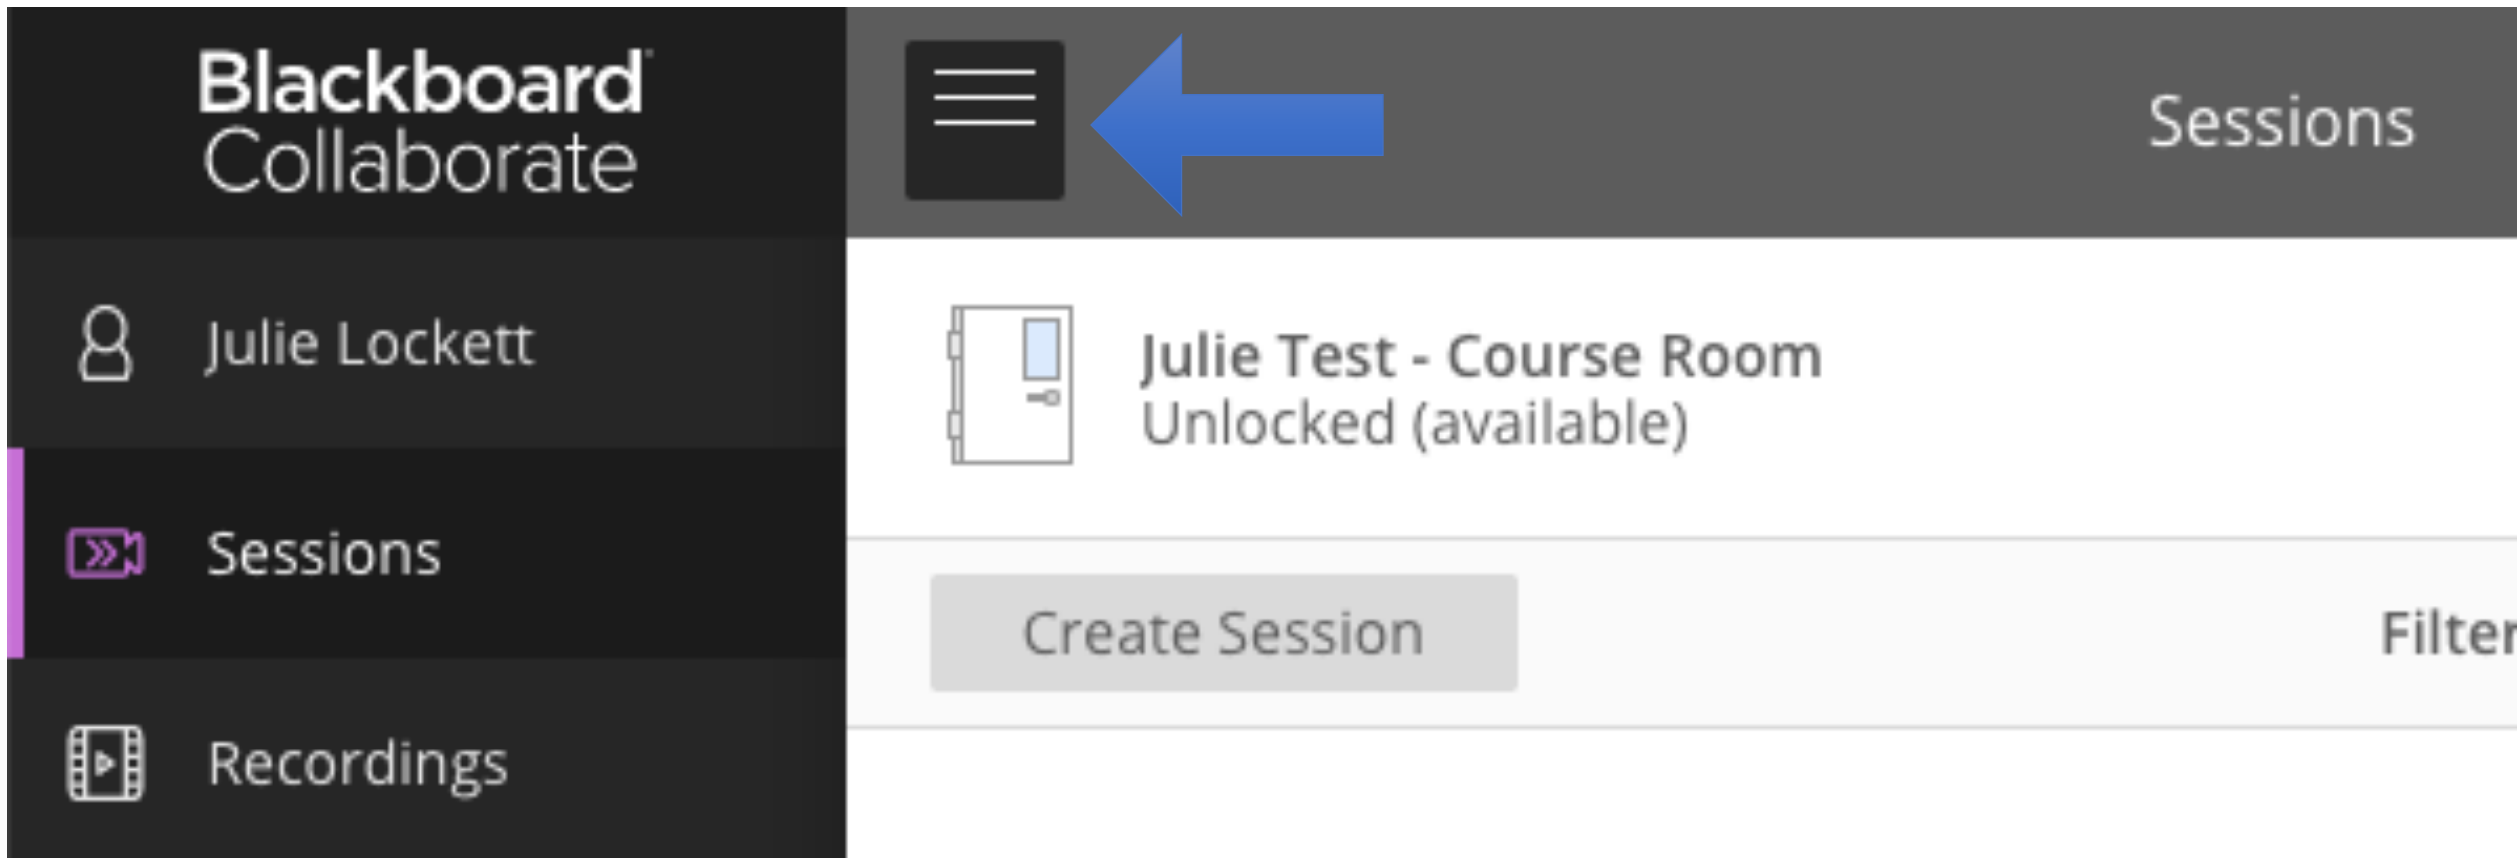

- Sessions can be recorded by the moderator.
- Recorded sessions can be accessed in the course in D2L.
- The instructor may link the recording within the appropriate content module or in a news item.

Access the Recordings in D2L

- Select the Menu on the left of the Sessions bar
- Select Recordings

Synchronous Small Group Activities

Breakout Groups

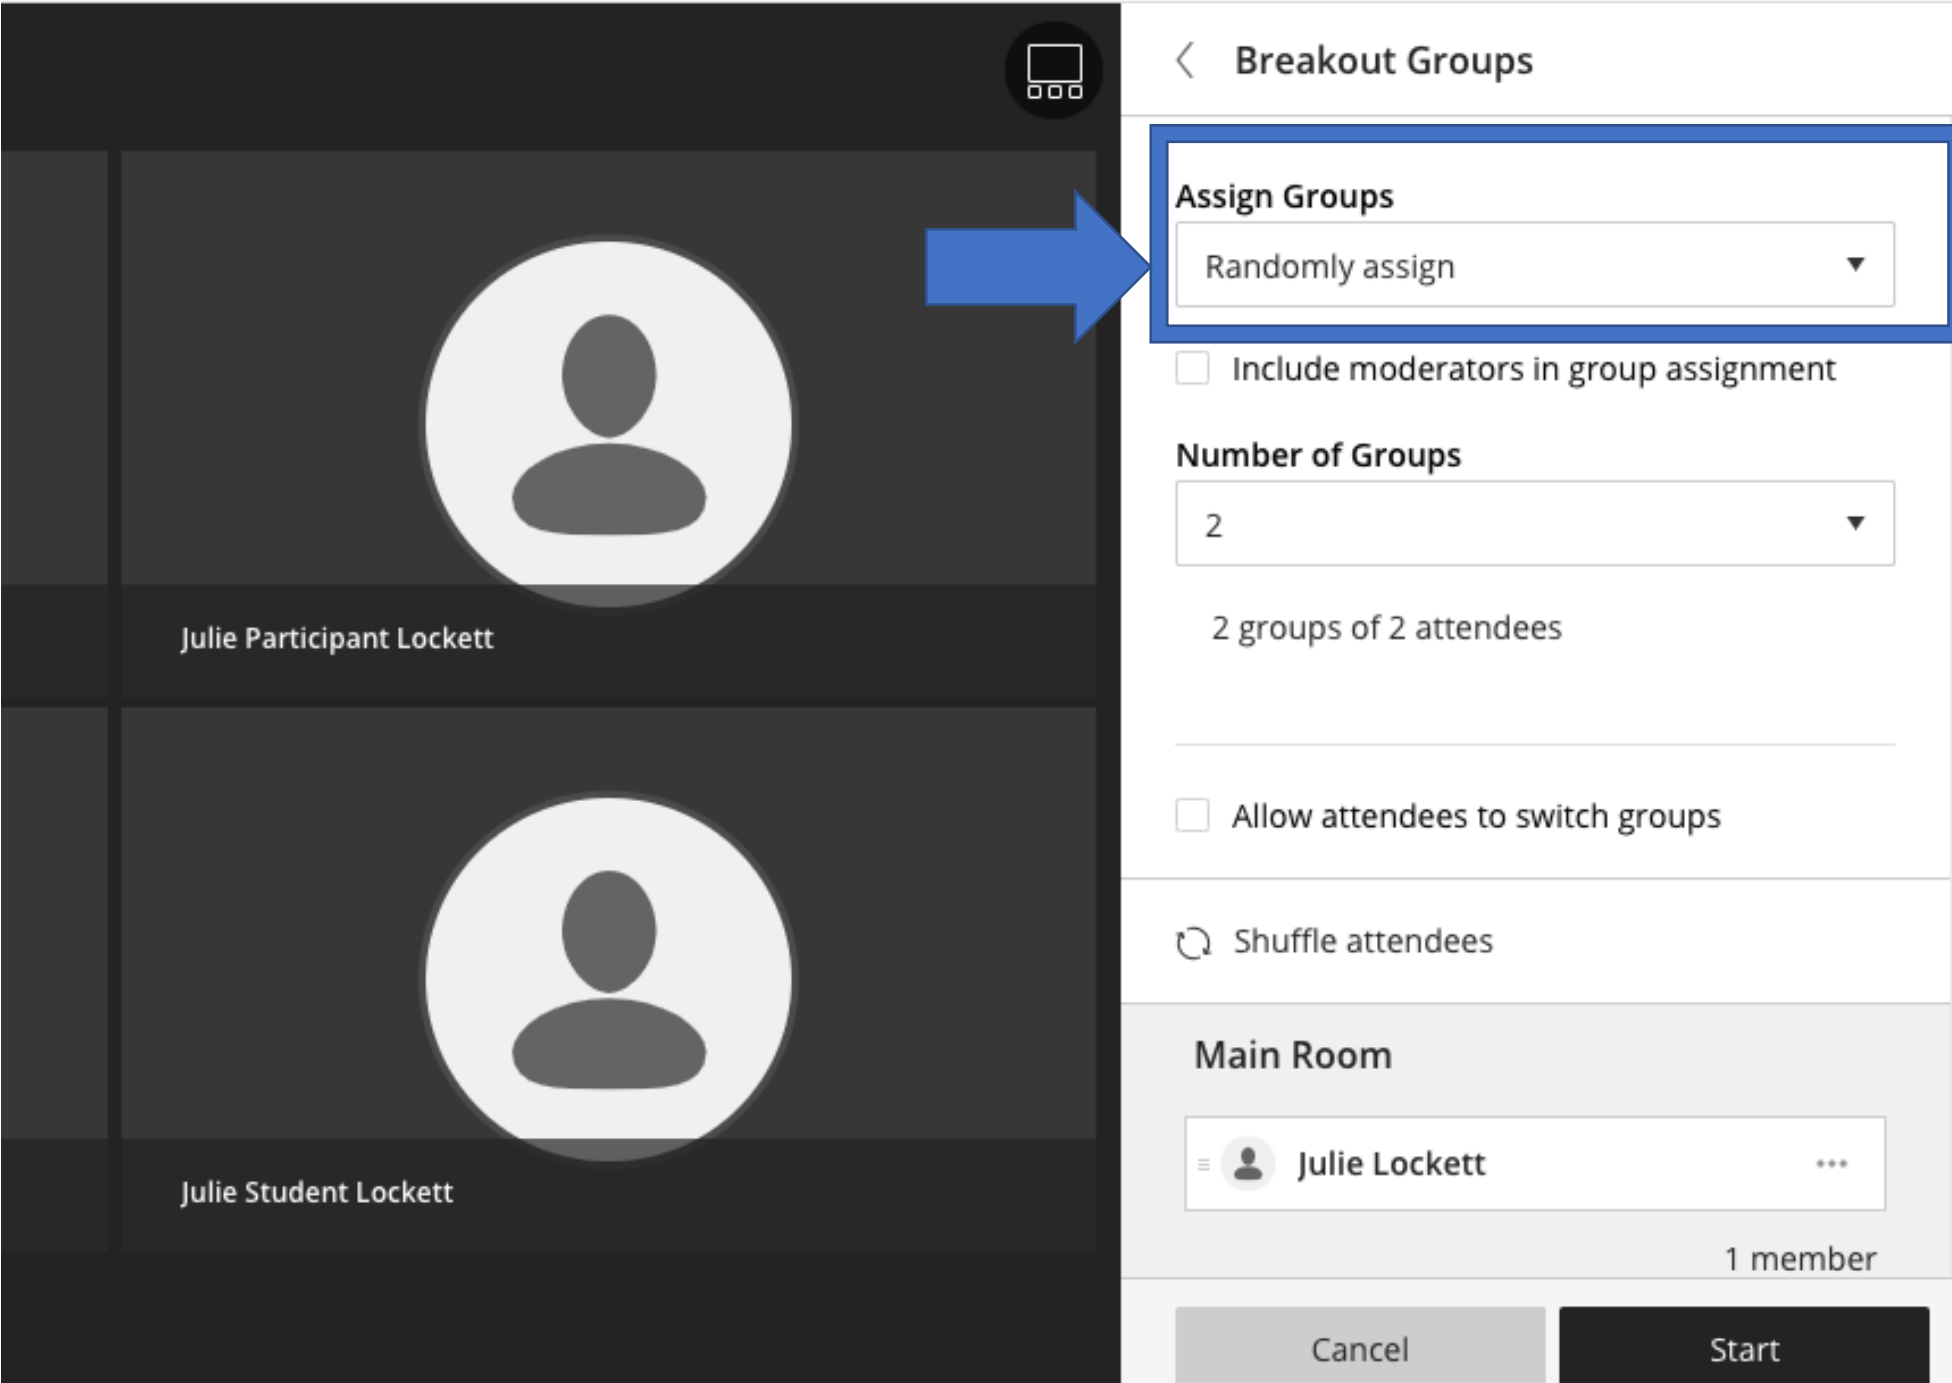

Blackboard®

Breakout Groups in Collaborate

- To facilitate small group collaboration, moderators can create breakout groups that are separate from the main room.
- Breakout groups have their own private audio, video, whiteboard, application sharing, and chat. Any collaboration that takes place in a group is independent of the Main room (and other groups).
- The moderator can move between groups.

The Moderator can choose to have Collaborate create and randomly assign breakout groups.

The screenshot displays a video conferencing interface. On the left, a grid shows two participants: 'Julie Participant Lockett' and 'Julie Student Lockett', each with a generic person icon. A blue arrow points from the top-right corner of this grid to the 'Breakout Groups' panel on the right. The panel has a title bar with a back arrow and the text 'Breakout Groups'. Below the title bar, the 'Assign Groups' section is highlighted with a blue border and contains a dropdown menu set to 'Randomly assign'. Below this are two checkboxes: 'Include moderators in group assignment' (unchecked) and 'Allow attendees to switch groups' (unchecked). The 'Number of Groups' section shows a dropdown set to '2', with the text '2 groups of 2 attendees' below it. A 'Shuffle attendees' button with a circular arrow icon is located below the checkboxes. The 'Main Room' section shows a list of participants, currently containing 'Julie Lockett' with a person icon and a three-dot menu icon to her right. Below the list, it says '1 member'. At the bottom of the panel are two buttons: 'Cancel' and 'Start'.

Or the Moderator can manually assign the groups.

The screenshot displays a video conference interface. On the left, a list of participants is shown with their names and profile icons. On the right, a sidebar titled 'Breakout Groups' is visible. The sidebar contains a section for 'Assign Groups' with a dropdown menu set to 'Custom assignment'. Below this is a checkbox for 'Allow attendees to switch groups'. The 'Main Room' section shows a list of groups: 'Create New Group', 'Group 1', and 'Group 2'. A participant, 'Julie Student 2 Lockett', is highlighted in a purple box within the 'Main Room' list. At the bottom of the sidebar, there are 'Cancel' and 'Start' buttons.

Breakout Groups in Collaborate

- Every attendee enters the group is a presenter. This means that all attendees can share the whiteboard, files, and applications with the rest of their group.
- *What is said or viewed in a breakout room isn't captured in recordings.*
- *Content shared in a breakout group is not available when breakout groups end.*
