Subject: Fwd: Data Analysis/Information Request Form [#33]

Hello,

Amy was wondering if this request was something that you had the information for. If you have any questions about it please give her a call at 581-5023.

Thank you

Data Analysis/Information Request I would to obtain a list of the salaries of all tenure-track faculty members at the institution, listing their rank and academic department of ascription, for the 2006-2007 fiscal year. This information is part of the Appropriated Funds Budget, specifically the Personnel Bulletin. From phone conversations with the Library faculty my understanding is that a copy of this document is available in the archives.

How will requested data analysis/information be used. I am an Associate Professor of Economics conducting an statistical study of the degree of salary inequality in academic salaries across ranks and academic disciplines at public universities in the State of Illinois. So far I have collected salary information for 7 of the 13 institutions in the system.

My study does not identify individuals, as it only presents aggregate information. A draft version of the work accomplished to date is available upon request.

Once the study is completed I plan on submitting a manuscript with my findings for publication in an academic journal.
