 Submitted by: Daniel Carter, Graduate Coordinator

Part 1

<p>CGS Learning Goal #1 A depth of content knowledge</p>	<p>Program Learning Goal(s): 1.a. The graduate candidate demonstrates a depth of content knowledge in the discipline. 1.c. The graduate candidate demonstrates the ability to apply content knowledge to practice. 5.d. The graduate candidate demonstrates an ability to provide evidence of differentiation of curricula. 5.e. The graduate candidate demonstrates an ability to provide evidence of inquiry based instruction.</p>
<p>How are learners assessed?</p>	<p>Degree seeking students are assessed by a committee of graduate faculty members using the Advanced Candidate Assessment Rubrics at three points within the program of study. Entry Level Data is collected upon admission to the program, Mid-point Data is compiled once two of the following three classes (i.e., EDU 5200, EDU 5260 and/or EDU 5270) have been completed, and Completion Data is obtained from the faculty members serving on the <u>Applied/ Action Research or Thesis Committee</u>.</p>
<p>What are the expectations for the students?</p>	<p>If pursuing Reading Teacher emphasis and completing the endorsement opportunity, 100% of the graduate candidates will pass the state content test. By the completion stage of assessment, all graduate candidates will receive meets/exceeds assessment ratings in the four learning goals identified in connection with the content knowledge learning goal.</p>
<p>What are the expectations for the program?</p>	<p>Upon completion of the program 100% of the graduate candidates are expected to meet or exceed expectations for each of the Graduate Standards. (NOTE: Graduate students who are “proficient” at entry and/or mid-point are considered to be meeting the standard in question.)</p>

Part 2

Assessment Accomplishments:

- Our MSED Curriculum and Instruction is fully online and has options for:
 - ESL (state endorsement)
 - Reading Teacher (state endorsement)
 - Curriculum Development
- We continue to have success integrating research within the program by utilizing a 3-course research prerequisite/sequence (EDU 5050 – Research I, EDU 5200 – Research II, EDU 5900 or 5950 – Action/Applied Research or Thesis)
- Graduate students continue to represent our program with excellence including:
 - Student recognition as King-Mertz and Hamand Scholar awardees
 - College of Education Thesis-of-the-Year Award for the seventh consecutive year
 - Membership on GSAC
 - William’s Travel Grants
 - IATE co-presentation with TLF faculty
- Data indicate our success as graduate students demonstrated once again 100% pass rates on the Illinois Reading Teacher Content Test every semester during the review period. This continues the track record of 100% pass rate since the program moved to an entirely online format.

- We continue our efforts that earned First Choice recognition and anticipate participation in the EIU Graduate Program of Excellence
- We welcomed the adoption of the Ethical and Professional Responsibility graduate learning goal. I have emphasized the number of learning objectives we associate with this goal at all three stages of assessment within our program.

Part 3

- CGS approved graduate catalog alignment updates that reflect the endorsement expectations required by the state. The sequence of courses and expectations in areas of emphasis for ESL and Reading now align perfectly with those state requirements.
- The department graduate committee's new formation and operation in the assessment year has provided the graduate coordinator another resource for decision-making and analysis of the program.
- Based on data results, interactions with IRB personnel, and faculty input, the committee is exploring the potential for a capstone course to complement the current thesis and action/applied research options. The capstone as a third option could emphasize application and be another way to assess professional responsibility. Again this discussion point is in the preliminary stages.
