

Dear AIS,

I am delighted to express my strong desire to serve as President of the Association of International Students at Eastern Illinois University. As an energetic and driven student, I am confident that I am qualified for this role and that I can make a substantial contribution to the organization.

Priority number one is to provide a welcoming and inclusive campus atmosphere for all international students. As an ex-international student leader, I understand the unique problems and possibilities that foreign students experience. I am dedicated to creating an atmosphere in which children from many backgrounds may engage, share their experiences, and form long-lasting friendships. I believe that by fostering inclusivity, understanding, and cultural exchange, we can improve the overall university experience of international students.

As a leader, I have a lot of experience that I believe will be useful in this job. I've held leadership positions in student organizations, where I honed my communication, organization, and collaboration skills. I am confident in my ability to effectively lead and manage a team of dedicated personnel that are passionate about serving the international student community.

I am committed to advocating for the interests and concerns of international students on campus and beyond. I will work closely with the university administration, faculty, and other stakeholders to ensure that the voices of international students are heard and represented. I will also endeavor to create opportunities for professional and personal growth, such as workshops, seminars, and cultural events, to improve the academic and social experiences of international students.

Furthermore, I am delighted to collaborate with other student organizations, both within and outside of the university, to promote diversity and cultural understanding. I feel that establishing connections and collaborations will help to create a more inclusive and vibrant atmosphere for international students while also developing mutual respect and understanding among students of all backgrounds.

I am honored to be elected President of the Association of International Students at Eastern Illinois University. I am dedicated to providing a welcoming, inclusive, and active atmosphere for all foreign students, as well as advocating for their needs and fostering cultural participation and understanding. I am certain that my leadership abilities, enthusiasm, and commitment will allow me to make a big difference in this job,

and I look forward to collaborating with members of the association and the university community to achieve our common goals.

I appreciate your taking the time to evaluate my application. Serving as President of the Association of International Students at Eastern Illinois University would be an honor.

Sincerely,
Isaiah Adegoke
