

As an international student myself, I have experienced the joys and challenges of studying in a new country. I understand the importance of feeling welcomed and supported, and I believe that the Association of International Students can play a critical role in creating a sense of community and belonging among international students.

In the role of President or Vice President, I would be committed to working closely with other members of the Association to identify the needs and concerns of international students on campus. I believe that it is important to create opportunities for cultural exchange and to provide support and resources to students who may be struggling with the transition to a new country.

My experience in managing teams and coordinating events would be valuable in these roles. I have experience working with diverse groups of people and believe that I can bring a collaborative and inclusive approach to leadership. By working together with other members of the Association, I believe that we can create a dynamic and supportive community that enhances the overall experience of international students on campus.

In the role of Sports Coordinator, I am excited about the opportunity to promote physical activity and team spirit among international students. I believe that sports can play an important role in creating a sense of community and helping students to feel more connected to campus life. I am confident in my ability to plan and execute successful sports events that cater to the interests and abilities of all students.

Overall, I am deeply committed to supporting international students and creating a vibrant and inclusive community on campus. I am confident that I can bring valuable skills and perspectives to the roles of President, Vice President, or Sports Coordinator for the Association of International Students, and I am eager to contribute to the success of the organization.
