

Getting to represent the Association of International Students at EIU will help me gain skills, make connections and broaden my knowledge. Whether I choose to join this organization as a member or decide to lead one, I will benefit from the involvement. Whether I choose to work with a group of diverse people or not, it is highly likely that I will encounter similar situations in the working world.

Understanding how different people react to different situations will help me develop my presentation and implementation skills. At the same time being part of such an organization can provide me with the opportunity to learn about different cultural backgrounds.

Multitasking is one of my strongest traits. I can do the same task everyday, and I am able to be flexible with the diverse tasks that are assigned to me on a daily basis. Among the reasons for applying for this nomination is that I have been impressed with the culture of productivity in the current AIS team. I am confident that I can be a valuable support to keep this current trend growing furthermore via the various roles i have chosen in this application.
