

Application

Yoonjin Kim

E12629171

The right reason for the position I applied for is my major. My major is marketing. I know how to promote AIS and efficiently strategize for activity promotion. In addition, I think it is suitable for the position I applied for because I have experience in graphic design and will continue my career in social media marketing. I've been running a social media marketing page on DC Comics for six years. For this career, I studied graphic design and learned how to use Photoshop.
