Subject: Nomination for the position of Vice President in ISA

Hello Ben,

Hope this email finds you well!

I am willing to context in the upcoming ISA elections for the Vice President position.

I am interested in the position as I want to bring some changes which can help the budding graduates as well as the students who will be a part of EIU in future semesters to complete their studies hassle-free. I have experience in leading teams and from the past 7 years, as a software professional and Team Lead, I have directed and seen many teams through success under my direction. I would say my experience impacts in a good way as I possess capabilities like spontaneous but not hasty decisions, adaptable, always transparent, no partiality, and do the necessary hard work to accomplish the same.

Below are some of the changes that I would like to implement:

- Remove the barriers between students and implement transparency in every aspect of the university.
- Resolve issues of students, either personal or academic by reaching out to appropriate people or senior representatives or having a conversation across the table to flush the discrepancies among ourselves.
- Planning to spin up a portal where all the ISA students can get daily feed on the part-time, GA, and other work opportunities so that it can be a single stop to get all the information. Also, would like to request the university to expose an API to get the aforementioned, if possible.

As I mentioned earlier, I will adapt according to situations and bring more changes that can be utilized by our fellow students.

Thanks & Regards,
Dattu Cherukuri.
