

I would like to Run for a vise president position because I thinks there is quite bit room to do more different events which attracts new upcoming students. I will also get a chance to represent my country and for Fall I'm also selected as a vise president of administration and finance at Residence Hall Association. I'm also a founder and president of Pakistani student Association. So, if I get a chance to work on this position I would like to use my experience and help more students.
