

I have good knowledge of event planning and I also have good communication skills. I have also coordinated with many of the events in the college. Moreover I was the Sponsor lead at my college fest. This type of roles I have been playing from my schooling and I have good command on it. I am also good at time management. I have applied for this role because I like doing this kind of work. I would contribute my skills and plan accordingly to execute any Activity successfully. It would be highly appreciated if you consider my request for this role.
