Hello,

My name is Modugu Lakshmi Venkata Sai Ganesh (E12706188), and I've registered in EIU's Spring intake of the Master of Computer Technology program. I'm passionate about building a strong sense of community among Indian students on campus, which is why I'm really interested in the position of Vice President for the Indian Student Association (ISA) at EIU. I think it's important to routinely arrange events that highlight our heritage and offer chances for networking and socializing because I appreciate cultural exchange and collaboration.

As part of my responsibilities, I can make a difference by making sure the ISA stays committed to its goal of hosting activities at least six times every semester. I'll put in countless hours to carefully organize and coordinate a variety of interesting activities that meet the needs and interests of our members.

I also recognize how important it is to participate and communicate on a regular basis within the ISA community. My goal is to create an environment that encourages candid communication, constructive criticism, and teamwork by helping to organize twice-monthly meetings for all Indian students. We may discuss issues, generate ideas, and deepen our ties to one another as a community through these gatherings.

Overall, I am committed to serving as a proactive and inclusive leader in the role of Vice President, working diligently to enhance the ISA experience for all members.
