**Subject:** Re: Nomination for ISA

---

I have experience in leading people in the past and have been successful working as a president and the captain of cricket team in my bachelors, and I have experience of leading people. Being a leader is not a passion or compassion its all about helping others who are in need and standing with them whenever they need a person. Leader is one who organizes events and take care of things through the events. Being a Vice President is all about replacing the President in his absence and I think I am eligible to apply for the position of Vice president. I am passionate and motivated to support the funding of students who are currently pursuing here at Eastern Illinois University I assure you that I would help the students in every way possible which I can not only to the present students I will be help for the upcoming students who are coming in next semester so here by I nominate my self as the Vice President and Treasurer of Indian Students Association.

Regards,

Sai Kiran Kuchina
