

Hi this is sai kiran Siddam I am from Manchiryal Telangana I completed my under graduation in the year of 2020 in Electrical and Electronics Engineering. After Completion of my Under graduation i started Working in Cognizant technology solutions at Bangalore for 2 years.

My desire to lead the Indian Student Association (ISA) and create a vibrant, welcoming environment for Indian students at our campus is what drew me to the position. In addition to improving the college experience for all students, this position provides a special chance to honor our cultural history. Creating a friendly atmosphere where Indian students feel appreciated and supported is my aim.

As President, my primary goal will be to plan interesting cultural events that will highlight Indian customs and foster intercultural understanding. My intention is to fortify community relations through cooperative endeavors with fellow student organizations, guaranteeing that the ISA contributes to the wider campus discourse.

In addition, I want to speak out for Indian students' needs by resolving issues and facilitating resource access. My dedication to transparent communication combined with my background in leadership will enable me to effectively represent our community and achieve significant change. My goal is to create a dynamic, welcoming organization that improves student life and cultivates respect and understanding among all students on campus by encouraging creativity and active participation within the ISA.
