My dear Sir:-

I would consider it a great favor if you will take the time and trouble to indicate to me the essential changes that are going on in the Normal Schools of the United States, and more particularly of your own state.

I do not refer so much to the administrative side as to the course of study and the ideals regarding the preparation of the teacher for modern conditions in the school room.

What do you forecast will be the essential changes in the next five years?

Yours very truly,

  
State Superintendent.
