SPECIAL COLLOQUIUM TALK

Speaker: Kurt Heckman

President of vCalc LLC

Old Main 2231

vCalc for Programming Students

Abstract:

vCalc is a crowd-sourced social media productivity platform that is building the world's universal calculator. vCalc.com contains the world's fastest growing library of equations and data available to all of its users for free. This, combined with vCalc's collaborative features, makes vCalc the first social networking capability that is productive and entertaining. vCalc empowers you to create "Your Math" with the tools to develop and share your own equations and data, and the ability to publish wikis and Web-enabled calculators using any combination of equations from vCalc's global community and your social network. vCalc is used by the public and in universities in more than 60 countries, where users are creating, collaborating and calculating information to build the world's greatest utility for the equations of life.

SNACKS IN FACULTY LOUNGE AT 3:30 PM.
EVERYONE WELCOME (EVEN IF YOU ARE UNABLE TO ATTEND THE TALK)
