PROFESSIONAL DEVELOPMENT WORKSHOP

GEMINI NOTEBOOK & GEMINI

Gemini Notebook and Gemini AI are integrated into Google for Ed & Classroom. The integration enables educators to create learning materials and offers students audio overviews as well as interactive study guides

INSANE

WORKFLOW!

- Use Gemini to: Brainstorm ideas, draft lesson plans, create quizzes, and generate images/videos quickly.
- Use Notebook to: Summarize/Integrate/Search PDFs, Google Docs, or web links creating a customized and controlled content that uses only the provided sources, citing them directly.
- Audio Overviews: Turn textbooks or curriculum documents into engaging podcast-style conversations.
- These tools are a safe way to manage AI and control the exact sources used.
- As Google Core Services the Googles Contract guarantees Student Privacy. Data is never shared or used to train AI models

AGENDA TOPICS

- ✓ Reduce planning and administrative tasks.
- ✓ Create customized study guides, infographics, and interactive quiz games.
- ✓ Differentiate - Adjust text complexity for diverse learners.
- ✓ Hand-on: Setting up a NotebookLM source notebook.
- ✓ Introduction: Understanding Gemini vs. NotebookLM (When to use which).
