EASTERN ILLINOIS UNIVERSITY

Guidelines for Naming Opportunities Connected with Donations of Substantial Funds

Consistent with Board of Trustees Regulations, University property may be named for notable former employees of the University, distinguished former members of the Board, donors of substantial funds, or public persons of the State and Nation or any country. Naming opportunities associated with the donation of substantial funds and the terms and conditions associated with such naming, shall be subject to final approval by the Board of Trustees as specified in Board of Trustees Regulations, Section VI.C. Principal responsibility for managing naming opportunities resides with the President of the University and the Vice President for University Advancement. Adherence to the funding minimums defined in this guideline is encouraged, however, other funding arrangements can be considered which best serve the wishes of the donor and the interests of EIU. The following criteria should be included in the consideration:

**Entire Building**

Names of buildings present special considerations for naming opportunities. In general a building should be named as directed by a donor only if a minimum of 50% of the privately secured funds but not less than $1 million is contributed by or at the direction of the donor.

**Building Additions and Renovations**

Not less than 50% of project costs.

**Portions of Buildings**

Individual rooms or wings in new or existing buildings such as auditoriums, lecture halls and lobbies, need to be considered on a case-by-case basis. Consideration will be given to such matters as type of usage, visibility and traffic flow.

**Unnamed Existing Buildings**

Currently unnamed buildings may be named by the establishment of an endowment equivalent to 12.5% of the fair market value of the building.

**Relocation or Replacement**

The name on an existing facility will remain for the life of the building. The name on a facility to be demolished will not be transferred to a new facility except in such cases when a useful facility is relocated to serve the greater interest of the University. Every effort will be made to preserve naming, while the University has the right to cease it under unique circumstances.
**Distinguished Professorship or Dean’s Chair**  
A distinguished professorship or dean’s chair will enable the university to honor or to recruit an outstanding scholar who has demonstrated the potential of making exceptional contributions to his/her discipline. Income from the endowment will provide support toward salary, professional development, related research and program expenses.  
Minimum Endowment Gift: $2.0 Million

**Named Chair**  
Provides income toward an outstanding faculty member’s salary and related expenses, including research and professional conferences.  
Minimum Endowment Gift: $1.0 Million

**Named Professorship**  
Provides support for an outstanding faculty member and related expenses.  
Minimum Endowment Gift: $500,000

**Named Visiting Professorship**  
Provides income to apply toward expenses for a visiting professor. These professorships will allow the university to benefit from talent which would otherwise be unavailable to Eastern Illinois University.  
Minimum Endowment Gift: $250,000

**Named Young Faculty Award**  
Provides income to apply toward the annual salary and teaching/research expenses of an outstanding young faculty scholar. These funds will enable Eastern Illinois University to attract and retain the most promising young professors.  
Minimum Endowment Gift: $250,000

**Named Fellowships**  
Provides income to fund fellowships for graduate students. Selection criteria will depend upon the donor’s preference and shall follow guidelines established by the Eastern Illinois University Foundation.  
Minimum Endowment Gift: $250,000

EASTERN ILLINOIS UNIVERSITY

Gift Acceptance, Donor Crediting and Gift Income Reporting Guidelines

The following guidelines are set forth: (a) to define the working rules for the acceptance of gifts and pledges to Eastern Illinois University Foundation; (b) to inform donors and prospective donors of these policies; and (c) to protect the Eastern Illinois University and its staff and volunteers from inappropriate or undesirable gifts and pledges. (*Note: These guidelines will be reviewed annually by the Eastern Illinois University Foundation Board of Directors to ensure they are consistent with their gift acceptance policies*).

I. General Policies, Guidelines and Definitions

A. The following definitions are used in this document: **Counting** is the numeric summary of activity, results and progress towards goal. **Reporting** is the process of conveying to a lay audience clearly and transparently what has happened during a specific timeframe. **Booking or accounting** is a process of keeping financial books based on a set of generally accepted guidelines and principles. **Crediting** is institution-specific and represents the way each organization grants recognition to its donors.

B. All gift and pledge commitments, regardless of size, designation, or gift type will be respectfully considered and gratefully accepted except in the very rare instance where a gift may be contrary to Eastern Illinois University Foundation’s best interests. Eastern Illinois University Foundation accepts both restricted and unrestricted gifts providing that donor restrictions do not significantly diminish the value of the gift. EIU will provide all possible staff and volunteer assistance to potential donors to discuss the organization's funding priorities, the donor's interests, and the various ways to give. **However, gifts of cash or negotiable securities are the forms of donor commitment that will have the greatest impact on Eastern Illinois University and its plans for the immediate future.**

C. Gifts to Eastern Illinois University should be made in the name of the EIU Foundation and will be received, held and administered under the direction of the Board of Directors. All gifts to Eastern Illinois University should be directed to the Philanthropy Office where they will be accepted, acknowledged and administered in accordance with these policies.

D. No solicitations of current outright gifts or future planned gifts for the benefit of Eastern Illinois University shall be made by anyone without the knowledge and approval of the Vice President of University Advancement or his/her designated representatives.
E. Pledges or outright gifts should be made in writing and should commit to a specific dollar amount that will be paid according to a fixed time schedule. The recommended maximum pledge period is five years. Individuals making gifts and pledges that are eligible for matching gifts are encouraged to utilize these programs to maximize the value of their gift or pledge to EIU. However, a matching gift cannot be used to fulfill a pledge commitment as the donor has no control over whether that match will be made nor can they legally obligate the company or entity to honor that pledge.

F. It is required by law that donors will be notified by the Eastern Illinois University Foundation if they receive any benefits in exchange for their gift that are more than IRS threshold (2% of gift total or $89, whichever is less.)

G. During any major gift initiative or campaign period, prospective donors may be asked to make an unrestricted annual gift commitment and a major gift commitment to Eastern Illinois University. In some cases, the prospective donor(s) may also be asked to consider a deferred or planned gift to EIU.

H. The Foundation Executive Officer shall have the authority to sign planned giving agreements on behalf of the Eastern Illinois University Foundation. Any gift agreement shall require the approval of the EIU Foundation Board of Directors.

I. Eastern Illinois University Foundation reserves the right to accept (or, in cases where absolutely necessary, to decline) any commitment that is offered to them. It also reserves the right to determine how any commitment will be credited and/or how such commitments will be recognized.

J. The Eastern Illinois University Foundation will acknowledge and recognize all gifts appropriately according to its gift acknowledgement and recognition procedures. Requests by donors for anonymity will be honored. A donor whose gift is matched by their company will be recognized for the total amount of their individual gift plus the matching portion on their gift record. They will receive the name recognition associated with the appropriate giving society for that total amount; however they will receive benefits accruing only to the value of their personal gift. Eastern Illinois University Foundation will credit an individual donor for the matching gift associated with their personal gift at the time the matching gift form is signed by both the donor and an authorized officer of EIU Foundation and is submitted to the matching gift corporation. At this time the matching gift corporation will also be credited with the matching gift so that it can be recognized appropriately.

K. Matching gifts will be recorded as gift income when the matching gift check is received. Matching gifts will only be recorded as pledges if and when an intent-to-pay acknowledgement letter is received from the corporation prior
to receiving a matching gift check. Gift income reports for each group of constituents (e.g. Alumni, Faculty, Board) will include personal gifts only. The associated matching gifts will be reported separately in the matching gift category.

L. Eastern Illinois University Foundation will use the accepted IRS formula (and accounting rules) if it wants to determine present value of future gifts.

M. All financial statements prepared by the Eastern Illinois University Foundation will be in accordance with Generally Accepted Accounting Principles (GAAP).

II. The Donor Bill of Rights

In accordance with the standards established by the Association of Fundraising Professionals, Eastern Illinois University adheres to the following Donor Bill of Rights which notes that a donor has the right to:

A. To be informed of the organization’s mission, of the way the organization intends to use donated resources, and of its capacity to use donations effectively for their intended purposes.

B. To be informed of the identity of those serving on the organization’s governing board, and to expect the board to exercise prudent judgment in its stewardship responsibilities.

C. To have access to the organization’s most recent financial statements.

D. To be assured their gifts will be used for the purposes for which they were given.

E. To receive appropriate acknowledgement and recognition.

F. To be assured that information about their donation is handled with respect and with confidentiality to the extent provided by law.

G. To expect that all relationships with individuals representing organizations of interest to the donor will be professional in nature.

H. To be informed whether those seeking donations are volunteers, employees of the organization or hired solicitors.

I. To have the opportunity for their names to be deleted from Eastern Illinois University mailing lists.
J. To feel free to ask questions when making a donation and to receive prompt, truthful and forthright answers.

III. Gift Reporting

All gifts and pledges that fall under the basic principles listed above will be reported to all internal and external constituencies of Eastern Illinois University on an on-going basis according to the gift acceptance guidelines herein. If Eastern Illinois University conducts a capital campaign, gift reports should be made to the Council for the Advancement and Support of Education (CASE) and the Council for Aid to Education (CAE). All reports should be based on the following:

A. The total of outright gifts and written pledges received will be reported at face value. A signed pledge card or letter of intent must be filed with the Office of Philanthropy before a pledge commitment is reflected on reports except as noted below in item B.

B. Verbal pledges made by telephone as part of the annual fund will be allowed. No other verbal pledge commitments will be included in reported totals.

C. The total of deferred (future) irrevocable commitments counted at face value, which will be received at an undetermined time in the future, will be tracked separately.

D. Revocable future gifts will also be tracked internally either at the face value disclosed by the donor or, if no value is indicated, at a minimum value assigned by the institution. Revocable gifts will not be booked as gift income. Donors of revocable future gifts will be recognized separately from donors of current gifts and irrevocable gifts.

E. The value of any canceled or unfulfilled pledges must be subtracted from totals when it is determined they will not be realized.

F. Gifts shall be valued on the date the donor(s) relinquished control of the assets in favor of Eastern Illinois University Foundation (see below).

IV. Policies Pertaining to Certain Types of Commitments

In cases where gifts are made with assets other than cash, the decision on when to liquidate, report, credit and recognize these assets will be made on a case-by-case basis. The following guidelines will be observed:

A. Gifts of publicly-traded securities will be reported, credited and recognized at the average of the high and low market value on either: 1) the day of personal delivery of signed certificate and/or stock power; 2) the date the
certificate and stock power is mailed; or 3) the day the electronic transfer is received by Eastern Illinois University Foundation. Such securities will be conveyed to Eastern Illinois University Foundation for immediate sale or according to the wishes of the donor.

B. Gifts of closely-held stock will be reported, credited and recognized at the per-share cash purchase price of the most recent transaction or current valuation information from the company if there is a buy-back transaction with the company. If no buy-back is consummated, a gift of closely-held stock may be credited at the value determined by a qualified independent appraiser. Otherwise the gift receipt will be for XX shares with no value attached. Typically, shares of closely held stock will be liquidated as soon as possible.

C. Outright gifts of real estate and/or bargain sales (real estate sold at a discounted price) will be reported, credited, and recognized at fair market value at the time it is transferred to Eastern Illinois University Foundation, less any encumbrances. A qualified independent appraiser employed by the donor shall determine the fair market value of the property.

Outright gifts of hard-to-value assets, such as mineral rights or limited partnerships, will be credited at $1 and additional credit will be given as the proceeds are received.

D. Outright gifts of tangible personal property/gifts in kind for which donors qualify for a charitable gift deduction under current IRS rules will be reported, credited, and recognized at the appraised value of the property at the time it is transferred to Eastern Illinois University Foundation, less any encumbrances, so long as the property has been held by the donor for more than one year and has a use related to the exempt purposes of the nonprofit. Gifts of property that have been held for less than one year and have a use that is unrelated to the exempt purpose of the institution will be reported, credited and recognized at the level of their cost basis only.

The following are general guidelines or considerations in connection with gifts of tangible personal property:

1. Generally, Eastern Illinois University and EIU Foundation’s acceptance of such gifts cannot involve significant additional expense for their present or future use, display, maintenance, or administration.

2. Generally, no burdensome financial or other obligations can be incurred, directly or indirectly, by Eastern Illinois University or EIU Foundation as a result of its acceptance of such gifts.
3. Gifts of personal property (jewelry, paintings, antiques, rare books, etc.) exceeding $5,000 in value shall be reported at the fair market value placed on them by an independent, expert appraiser employed by the donor at the time the donor relinquished control in favor of Eastern Illinois University or EIU Foundation. Gifts of under $5,000 may be reported at the value declared in writing by the donor. If the donated property is sold or otherwise disposed of within three years upon receipt from the donor, the nonprofit must file a form 8282 with the IRS.

4. Eastern Illinois University or EIU Foundation should not accept gifts of tangible personal property (such as books, paintings, etc.) if such gifts are to be made on the condition, understanding, or expectation that the gifted items will be loaned to the donor or to persons designated by the donor for life or for an extended period of time as determined by the donor.

5. It is the responsibility of the company making an in kind gift to provide the documentation to determine its fair market value.

E. Charitable Lead Trusts will be counted, reported and credited at the face value of all annuity payments to be received during the campaign period.

F. Bequest intentions and other revocable deferred gifts will not be reported as income but will be tracked internally as "future" expectancies of Eastern Illinois University Foundation at the value established in writing by the donor through a bequest intention form, a deferred pledge agreement, a contract to make a will, a letter, or a copy of appropriate sections of the will, etc. Donors of revocable future gifts will be recognized separately from donors of current gifts and irrevocable gifts.

1. Such revocable gift commitments will be reported, credited and recognized, subject to the donor's specific request and intent, only when the funds are irrevocably committed to the Eastern Illinois University Foundation or when the gift matures. Bequests will be reported, credited, and recognized at the value established at the time of probate and/or at the fair market value on the date of the transfer of the asset(s). If any portion of the total amount was previously tracked internally as a "future" expectancy, this amount shall be subtracted from the total value of these expectancies.

2. Bequest intentions for which the donor does not indicate a specific gift value and/or does not provide an estimate of a residuary bequest will be tracked internally as future expectancies at a minimum value level of $10,001 which will clearly identify it as a bequest.
G. Gifts of whole life insurance to the Eastern Illinois University Foundation will be made by either designating EIU Foundation as the beneficiary of the policy or as both owner and beneficiary. When the gift is irrevocable because Eastern Illinois University Foundation is the owner and beneficiary and the policy is paid up, the donor shall receive gift credit for the cash surrender value or replacement value. Because the unrealized death benefit is a “future” expectancy, when Eastern Illinois University Foundation is both the owner and the beneficiary, the donor will be credited and recognized at the death benefit level of the policy.

Where the gift is revocable because the donor still owns the policy or the policy is not paid up, premium payments made directly to the insurance company will be credited and recognized if the donor sends evidence to Eastern Illinois University Foundation of the payment via a cancelled check. The gift will be tracked internally like revocable bequests. No gift income will be reported unless the Foundation owns the policy and it is paid in full and therefore becomes irrevocable.

Gifts of term life insurance will be tracked internally like revocable bequests, however no gift income will be reported, credited or recognized unless the policy matures during the term period.

H. All gifts that will, or may, require significant expenditure of funds either at the time of the gift or at some future date (e.g., non-performing assets gifted to fund a charitable trust or charitable gift annuity, bargain sales, or outright gifts such as real estate that may impose present obligations on the Eastern Illinois University Foundation shall require the approval of the Board of Directors.

I. Irrevocable charitable gift annuities, charitable remainder trusts, charitable lead trusts and pooled income funds (whether administered by the Eastern Illinois University Foundation or by others on behalf of Eastern Illinois University) will be reported, credited, and recognized as follows:

1. In the case of charitable remainder unitrusts and annuity trusts, charitable gift annuities or pooled income funds, at their face value, or

2. In the case of charitable lead trusts, at the total anticipated payout over the pledge payment period.

Future gifts that specify Eastern Illinois University or the Eastern Illinois University Foundation as a contingent beneficiary shall not be counted.
V. Administrative Procedures Relating to Certain Planned Gifts

A. For Life Income Agreements

1. Proposed *charitable remainder trusts* should be funded initially with assets of at least $100,000. Trusts may be established for lesser amounts if it can be determined that the charitable remainder portion of the gift is sufficient to handle the administrative costs and provide a substantial future gift to Eastern Illinois University.

2. Trusts should be limited to one or two income beneficiaries and to beneficiaries over 40 years of age (unless some generous outright gift is combined with the trust, in which case trusts can include younger beneficiaries).

3. The interest rate used in preparing life income agreements will be as follows:

   a. For charitable gift annuities, no higher than the rate established by the American Council of Gift Annuities.

   b. For unitrusts and annuity trusts, the law mandates a rate of at least five percent (5%). Higher rates may be approved by the Eastern Illinois University Foundation, based on: (1) the ages of the donor and any beneficiaries; and (2) income needs vs. tax relief.

4. Funds received for annuities and trust agreements may be administered by the Eastern Illinois University Foundation. Separate accounting is provided to the donor on each life income agreement. Annuity or trust payments shall be made at the donor's choice: monthly, quarterly, semi-annually or annually. In order to control the cost of trust and annuity administration, Eastern Illinois University Foundation prefers to make payments quarterly.

B. For Retained Life Estates

The gift of a primary residence, a vacation home, or a farm with retained life interest on the part of the donor shall be arranged without a trust agreement. The donor deeds the property to Eastern Illinois University Foundation immediately. Calculation of the remainder interest which is allowed for federal income tax deduction credit is based on an IRS formula. The gift is booked at the appraised value, minus any encumbrances, at the time of the gift agreement.
Policies Pertaining to Named Endowment Funds

All policies related to named funds will follow the naming policies of Eastern Illinois University and the EIU Foundation.

A. For the purposes of this policy statement, "endowment fund" shall refer to any fund, or any part thereof, not wholly expendable by Eastern Illinois University on a current basis under the terms of the applicable gift instrument with the Eastern Illinois University Foundation.

B. Endowment funds are invested according to the investment policies established by the Board of Directors of the Eastern Illinois University Foundation.

C. Endowment gifts may be used to establish a special endowment fund or may be added to an existing endowment fund.

D. When establishing an endowed fund, a formal Endowment Agreement should be used to specify the name of the donor(s) and the amount of the gift, the name of the fund and the donor’s purpose for use of the earnings. This Agreement is dated and executed with the signature of the Foundation Executive Officer of the Eastern Illinois University Foundation upon approval by the Board of Directors and the donor(s).

E. In designating an endowment gift for a specific purpose, the donor is encouraged: (a) to describe that purpose as broadly as possible; (b) to avoid detailed limitations and restrictions.

F. Gifts to establish a named endowment fund for specific purposes must meet the minimum dollar requirement of $10,000 as established by the Eastern Illinois University Foundation. The principal amount of the original gift need not meet the minimum dollar requirement if the donor agrees to fully fund the endowment at the minimum dollar requirement within a specified and reasonable period of time.

G. The minimum dollar requirements established for a named endowment fund shall not apply to any named endowment fund(s) already established at the time these policies are adopted.

H. The Eastern Illinois University Foundation reserves the right to review the minimum amounts required for named endowments periodically and to amend the minimum amount required so as to ensure that endowment proceeds are sufficient to fund the intended purpose(s) of the endowment. If, and when, the Eastern Illinois University Foundation acts to increase the minimum amount required to establish a particular named endowment fund, such action shall not be retroactive to funds already established and named.
VII. Exclusions

The following types of funds will be accepted but will not be reported or credited as gift revenue by Eastern Illinois University Foundation:

A. Contract revenue, including sponsored research funds

B. Advertising revenue

C. Contributed services unless the services received: a) create or enhance non-financial assets or; b) require specialized skills, and are provided by individuals possessing those skills that would typically need to be purchased if not provided by donation.

E. Earned income such as ticket income and event fees

F. Gifts or pledges, outright and deferred, that have previously been counted

These policies are meant to conform to all IRS and general accounting standards and can be amended if the laws change.

Ms. Nimmons moved to approve the proposed revision to Board Regulation: Section V.J.7.a.(3) and Section V.J.7.(f). Mr. Welch seconded the motion.

Dr. Nadler made a presentation for the proposed revision. Currently the University is prohibited from refunding the insurance fee. The proposed revision will allow the University to refund the insurance fee unless a claim has been submitted. In the past the insurance fee was a premium payment and was sent to the insurance company, and a refund would have resulted in a loss to the University. The University is now self-insured so the money is available for refund unless a claim has been filed.

President’s Report

Dr. Perry stated that there would be four presentations given, and he introduced Dr. Weber to give an update on capital projects. Dr. Weber mentioned the ribbon-cutting ceremony that had just been held for the Student Success Center, which is an extension to Ninth Street Hall. He thanked the people in Facilities Planning & Management for their quality work on this project. Dr. Weber also mentioned the Textbook Rental Facility which is being built on Edgar Drive. This project is progressing very well, and the building work is on track to be finished at the end of October. He also spoke of the mass-notification system, noting that a new siren has been placed on the roof of Old Main. Additionally, Dr. Weber mentioned the new floor in Lantz Gym. The floor was replaced due to water damage from a storm, and the cost was covered by insurance funds. Finally, Dr. Weber pointed out the work that Justin Perry and the grounds crew have been doing on campus.

Dr. Perry introduced Ms. Cynthia Nichols, who gave a report on the Title IX Compliance Report. The report is below in its entirety.
Dr. Perry introduced Dr. Lord for a presentation on faculty achievements. Dr. Lord mentioned Dr. Charles Foy, of the History Department, who studies the lives of 18th century African Americans, Native Americans, and mixed race Mariners. Dr. Lord also mentioned Dr. Jim Painter, Chair of the School of Family and Consumer Sciences, who made the Portion Size Me video, which was developed to demonstrate how fast food can be incorporated into a healthy diet. Dr. Painter has written a textbook on the same topic, and has donated funds from his speaking engagements and the Portion Size Me video to assist with the development of a commercial kitchen in Klehm Hall. Dr. Lord spoke of Dr. Gail Richard, from the Communication Disorders and Sciences Department. Dr. Richard is an expert on Autism Spectrum Disorders (ASD), and has used theories about causality and function of autism to develop effective clinical intervention techniques. She has published a number of books on the topic, and her expertise has been sought by clinicians and parents throughout the country. Finally, Dr. Lord mentioned the work of Dr. Charles Eberly. Dr. Eberly’s research is focused on the study and practice of Student Affairs. He is recognized as an expert on Greek life, specifically fraternities.

Dr. Lord then asked Dr. Chesnut, from the Office of Research & Sponsored Programs, to provide a report on funded research activities. Dr. Chesnut reported that a good deal of faculty accomplishment is supported by external funding. Recent totals of combined external funding have been about seven to eight million dollars per year. This has come from a range of sources, including federal granting agencies as well as agencies at the state level.

Dr. Perry introduced Ms. Barbara Burke, Athletic Director, for a presentation on intercollegiate athletics. Ms. Burke reported that there were 5 OVC Championship teams this year – men’s and women’s indoor track, men’s and women’s outdoor track, and baseball. The OVC Individual Championship was won by Keri Reardon, a female golfer. Ms. Burke also mentioned the academic standing of intercollegiate athletes. The average GPA for all men’s and women’s sports programs was 3.12 for the 08-09 academic year. She reported that the Academic Progress Rate (APR) of 925 was exceeded by all the intercollegiate programs on campus. Ms. Burke also mentioned community service programs in which student athletes are participating, an increase in donor support of intercollegiate athletics, an increase in scholarship gifts, and an increase of 15% in corporate sales. Additionally, Ms. Burke reported on three new programs with the Panther Club. Those include Panther Patio at men’s and women’s basketball games, the Athletic Director’s Gala, and the Panther on the Road series.

**Title IX Compliance Report**

Eastern’s Office of Civil Rights and Diversity collects survey data and other types of information as part of a process used to monitor whether the university is providing equal opportunities for its female students in intercollegiate athletics. Surveying students regarding their interests and abilities to compete in intercollegiate athletics is referenced in the university’s NCAA Gender Equity Plan and is recommended by the U.S. Office for Civil Rights.
As part of this ongoing monitoring process, Eastern’s Office of Civil Rights and Diversity analyzed responses from 1,635 first-time freshmen and transfer students who completed Title IX Interests and Abilities surveys during the 2009 summer orientation process.

Longitudinal data and other information suggest that Eastern currently is fully and effectively accommodating the interests and abilities of its female students to participate in intercollegiate athletics. The university will also continue to track any significant changes in the numbers of high school and college women competing in sports.

**Report from Board Chair**

Mr. O’Rourke welcomed everyone – students, faculty, administration, and the board – back to campus, and wished them all a successful academic and athletic year.

**Committee Reports**

**Executive Committee** – Mr. O’Rourke reported that they received a complete and thorough update of the H1N1 virus, and strategic planning going on at the university regarding the H1N1 virus. Also discussed was the most recent IBHE meeting, MAP funding for students, dual enrollment and cooperative efforts in programs with community colleges, an update on the renewable energy center, and some information on the FutureGen project.

**Board Relations** – Ms. Nimmons reported that four areas had been discussed. Those included alumni events, fund raising initiatives, legislative initiatives in relation to MAP funding, and marketing of the university.

**Finance/Audit Committee** – Dr. Webb reported that there was discussion of appropriations for FY09, FY10, FY11, and FY12.

**Academic & Student Affairs Committee** – Mr. Welch reported that the unofficial enrollment report shows an enrollment of 11,973, which is slightly down from last year. He also mentioned the successful move-in day for fall semester, convocation, and the Eastern Reads program.

**Board Regulations** – No report.

**Reports from Constituencies**

**Student Government** – Student body president Michelle Murphy introduced herself to the board. Ms. Murphy is excited to be student body president, and has several goals for the coming year. One of those goals is to improve student involvement and attendance at athletic events. Ms. Murphy is a former member of the Blue Crew, and a former member of the Panther Marching Band. She, along with several other members of Student Government, was instrumental in creating a new student group known as Panther Nation. Over 350 members have signed up for Panther Nation so far.

8. A revision to Board Governing Policies was provided as a first reading.

Policy: II.D. Academic Freedom and Responsibility
Issued: January 16, 1996

The following revisions are being presented as a first reading to Board Governing Policy Article II.D.:

D. Academic Freedom and Responsibility.

In adopting the following statements concerning academic freedom and responsibility, the Board affirms that academic freedom should not be abridged or abused and joins the numerous other organizations which have endorsed such principles.

1. Academic Freedom.

Institutions of higher education are conducted for the common good and not to further the interest of either the individual faculty member or the institution as a whole. The common good depends upon the free search for knowledge and truth and its free exposition. Academic freedom is essential to these purposes and applies to teaching, research, and publication. Academic freedom in research is fundamental to the search for knowledge and truth. Academic freedom in teaching is fundamental for the protection of the rights of the faculty member in teaching and of the student to freedom in learning. Academic freedom in publication is fundamental to foster an environment of intellectual curiosity and dialogue. This freedom carries with it duties and responsibilities correlative with these rights.

   a. Faculty members are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.

   b. Faculty members are entitled to freedom in the classroom in discussing their subjects, but they should be careful not to persistently introduce into their teaching controversial matters having no relation to their subject.
c. College or university faculty members are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as a citizen on matters of public concern they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As a person of learning and an educational officer, they should remember that the public may judge their profession and their institution by their utterances. Hence, they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should indicate that they are not institutional spokespersons.

E. Revision to Board Governing Policies [First Reading] (Cont.)

d. In accordance with 110 ILCS 665/10-140, all faculty and staff members are free to communicate views on any matter of public or private concern to any branch of the state or federal government or any member thereof provided that the employee does not represent that he or she speaks for or on behalf of the university unless otherwise authorized. Faculty and staff members may also:
   i. display political buttons, stickers, or patches provided that such display by faculty members in instructional settings is relevant to the instructional purpose;
   ii. attend partisan political rallies provided that the faculty or staff member is not on duty; and
   iii. display partisan bumper stickers on his or her vehicle.

9. Mr. Kratochvil moved to approve the new request for Citibank, Chicago, IL, as a depository for local funds. Mr. Wilber seconded the motion.

is right at or just above the national average in FGR and GSR. She also reported that EIU’s student athletes did quite well in the NCAA Division I 08 – 09 Academic Progress Rate.

Report from Board Chair

Mr. O’Rourke reported that the Board self-assessment tool is nearly complete, and that once the evaluation is complete it will be mailed to the Board members. Completed evaluations would be returned to the President’s Office for compilation, and a report of the findings would be provided at either the March or April Board meeting.

Committee Reports

Executive Committee – No report.

Board Relations – No report.

Finance/Audit Committee – Dr. Webb reported that he met with Ms. Sherry McRaven, Director of Internal Auditing. There was also some discussion of the new Textbook Rental Center building, and some discussion of the division of duties that will be necessary after Dr. Nilsen’s retirement.

Academic & Student Affairs Committee – Mr. Welch shared that Dr. Lord gave a report on an integrated learning conference, and Dr. Nadler gave a report on the scheduled opening date of the Textbook Rental Center building. The committee also received an update on the H1N1 virus and its impact on campus, and a brief update on the MAP program.

Board Regulations – No Report

Earned Degrees Report

Dr. Lord reported that a record high of 3,018 degrees were awarded in FY2009. He shared that there has been a modest but steady increase in graduate programs over the past few years, and that the list of the largest majors has essentially remained unchanged with Elementary Education being the largest undergraduate major and Education Administration being the largest graduate program.

Alumni Association Report

Mr. Steve Rich, Executive Director of Alumni Services, provided a report on Alumni Association events. In FY2009, the Alumni Association hosted 40 events, with almost 3,000 people in attendance. He also mentioned some Alumni events that were held during Homecoming weekend and during the summer. In addition to Alumni events, Mr. Rich shared information on the Alumni Association magazine Old Main Line, which is printed and distributed twice a year, and some scholarships that are administered through the Alumni Association.
Enrollment Report, Summer and Fall 2009

Dr. Lord reported that there was a drop in summer enrollment last year, caused primarily by the economy. Many students who choose not to remain in Charleston for summer semester take classes online instead. Dr. Lord shared fall enrollment numbers of 11,966 students, which is very close to the goal of 12,000. He also mentioned a decline in freshman enrollment for this year, as fewer high school graduates are enrolling in four-year institutions.

6. A revision to Board Governing Policies was provided as a final reading.

Policy: II.D. Academic Freedom and Responsibility
Issued: January 16, 1996

The following revisions are being presented as a final reading to Board Governing Policy Article II.D.:

D. Academic Freedom and Responsibility.

In adopting the following statements concerning academic freedom and responsibility, the Board affirms that academic freedom should not be abridged or abused and joins the numerous other organizations which have endorsed such principles.

1. Academic Freedom.

Institutions of higher education are conducted for the common good and not to further the interest of either the individual faculty member or the institution as a whole. The common good depends upon the free search for knowledge and truth and its free exposition. Academic freedom is essential to these purposes and applies to teaching, research, and publication. Academic freedom in research is fundamental to the search for knowledge and truth. Academic freedom in teaching is fundamental for the protection of
the rights of the faculty member in teaching and of the student to freedom in learning. Academic freedom in publication is fundamental to foster an environment
of intellectual curiosity and dialogue. This freedom carries with it duties and responsibilities correlative with these rights.

a. Faculty members are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.

b. Faculty members are entitled to freedom in the classroom in discussing their subjects, but they should be careful not to persistently introduce into their teaching controversial matters having no relation to their subject.

c. College or university faculty members are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as a citizen on matters of public concern they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As a person of learning and an educational officer, they should remember that the public may judge their profession and their institution by their utterances. Hence, they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should indicate that they are not institutional spokespersons.

d. In accordance with 110 ILCS 665/10-140, all faculty and staff members are free to communicate views on any matter of public or private concern to any branch of the state or federal government or any member thereof provided that the employee does not represent that he or she speaks for or on behalf of the university unless otherwise authorized. Faculty and staff members may also:

   i. display political buttons, stickers, or patches provided that such display by faculty members in instructional settings is relevant to the instructional purpose;

   ii. attend partisan political rallies provided that the faculty or staff member is not on duty; and

   iii. display partisan bumper stickers on his or her vehicle.
