Intercollegiate Athletics
Mr. Michael reported to the Board that a consultant was brought in to evaluate the athletic program. Currently EIU has 21 sports, and the minimum needed for NCAA Division I is 14. The Intercollegiate Athletic budget is $13M, of which $1.3M is appropriated dollars. Discussion followed on several items: paying players, the overtime policy beginning January 1, 2017, benefits of Division I as opposed to a lower division, lack of revenue for staffing and other benefits, etc.

Enrollment Outlook
In FY 16 EIU had slightly over 8500 with all students. In FY 17 the number of freshmen and transfer students will be down because of the budget impasse in Springfield. Graduate enrollment will be up and the number off international students will be up. Plans for moving forward: do program review, get back to 9,000 or 10,000 students, stop adverse perception, fund recruitment next year, and hire an
Associate VP for Enrollment Management. FY 16 was a devastating year for higher education in Illinois,

**Academic Program Development**
Program review will have four components – quality, centrality to mission of the university, marketability of program, and P & L (profit and loss). In conclusion, program will be deemed to fall into one of the following categories – program is viable, program is under-resourced, right size and doing well, or not sustainable. The review will provide opportunities for niches and new programs. The Board is charging the President to conduct the program review, and Chair Dively and President Glassman will work together on the specifics of the process.

**Budget Issues and Contingency Planning**
The Board discussed the budget quite extensively on Friday at the Finance/Audit Committee meeting, and they were asked if they had additional questions.

**Authorization to use Auxiliary Facilities System Surplus Revenue**

**President’s Council Performance and Replacement Strategy**
