Guests: Paul McCann, Tim Zimmer, Jeff Cross, Dave Crockett, John Sigler, Chris Mitchell, Mike Cornebise, and Jeannie Lord.

Meeting:

The meeting was called to order at 10:00 am and introductions were made.

Many members of the Plantworx Committee attended to give their input on how facilities in the Academic areas can be improved. Clearly the Life Sciences Building has the most problems of the academic buildings. Coleman also has problems. We discussed how projects are funded and the current status of projects. Plantworx has written a report that prioritized classrooms.

Paul McCann was asked to explain the financial statements from the Vitalization website. He went over many types of entries.

The meeting was adjourned at 12:00

The next meeting of this workgroup will be on October 13 at 10:00 am in the Physics Conference Room.

Respectfully Submitted:

Steven Daniels
