Ms. Smyser:

Mr. Miller's March 14, 2012, letter was in response to your Freedom of Information Act (FOIA) request received March 13 requesting records of the University's Institutional Animal Care and Use Committee (IACUC). The IACUC at EIU only deals with live vertebrate animals. Therefore, your request concerning the use of deceased dogs or cats will be treated as a new FOIA request, and you will receive a response by March 20, 2012.

Thanks so much for your prompt response.

One question: My FOIA asked about the use of dogs or cats. Mr. Miller's response said that E.I.U. does not use live dogs or cats.

How about dogs or cats that are already deceased?

Thanks for this additional information.
