

September 11, 1913.

Miss Gladys Bryant,  
Troy, Illinois.

Dear Madam:

In reply to your letter of September 8, let me say that we are just starting a domestic science and domestic art department with good equipment and a very competent teacher. We shall be very glad to have you come here.

You can add music and English to that work, if you wish to do so. We should expect you to take some more work than simply domestic science and domestic art.

Yours very truly,
